

To Whom it may concern

Compliance on pesticides, veterinary products and heavy metals

We, Rousselot, hereby certify that our following products manufactured in Rousselot Isle-sur-la-Sorgue and Angoulême (France), Ghent (Belgium), Girona (Spain), Amparo and Presidente Epitácio (Brazil) and Dubuque (USA) and delivered to the **European Union**:

Rousselot® Gelatines, Peptan® Collagen Peptides, ProTake® and Nextida™ GC intended for human consumption

are derived exclusively from animals deemed fit for human consumption by *post mortem* inspection for fishes and *ante and post mortem* inspection for the other animals, and are in compliance with the main food regulations and in particular the European ones regarding **pesticides** (Regulation (EC) N° 396/2005 and further amendments such as regulation (EC) N°310/2011) **veterinary products** in foodstuffs (Regulations (EC) N°470/2009 and (EC) N° 37/2010 and further amendments).

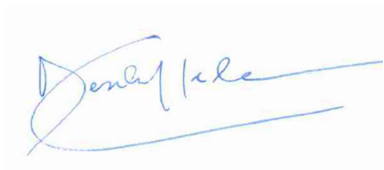

In accordance with the Regulation (EC) N° 853/2004 on the hygiene of foodstuffs of animal origin, the Regulation (EU) 2023/915 on contaminants and US Food Chemical Codex, **Rousselot® Gelatines, Peptan® Collagen Peptides, ProTake® and Nextida™ GC intended for human consumption** are in compliance with the following levels of **heavy metals**:

Residues

Maximum limits

According to the regulation (EC) N° 853/2004 or the most stringent regulation.

As	1 ppm
Pb	3 ppm ((EU) 2023/915) (5 ppm in 853/2004)
Cd	0,5 ppm
Hg	0,1 ppm ((EU) 2023/915) (0,15 ppm in 853/2004)
Cr	10 ppm
Cu	30 ppm
Zn	50 ppm
